UNDER THE PRETEXT OF FIGHTING DE GAULLE THE CRYPTO-TROTSKYISTS OF THE FRENCH COMMUNIST PARTY ARE PREPARING THE WAY TO A DICTATORSHIP BY JULES MOCH!

France's internal situation as well as her position in the field of foreign relations cannot deceive but the imbeciles and the idiots. And the messianic deviation of the French Communist Party is a fact which cannot be denied and in so far we are concerned we are in a position to cite the names of all responsibles.

They are certainly men who abuse the confidence accorded by the French democrats to the Communist Party, and who try to protect themselves behind its glorious tradition and reputation.

They are simply and merely impostors who claim to have the monopoly of communism and pursue nothing else than racial chimeras of the chosen people to lead the other peoples. These gentlemen, it is worth while to mention their names, are those who enjoy a kind of artificial popularity worked out by the offices of the messianic Press. Among them we will find the names, known at the time when anti-sovietism was an ally of Hitlerism, and we ask ourselves how they have succeeded to infiltrate in the sanctuary of the French Communist Party. If we could shout out: —"Martyrs of the French Communist Party awake from your slumber to chase the provocateurs who defile your ultimate sacrifices" we should do it even if a volley of machine guns should mow us down for ever. However, we can write and accuse to-day when the danger is not so great instead of waiting tomorrow.

We accuse Mme. Madeleine Braun, we accuse Mr. Kriegel Valrimont, Mr. Pierre Villon, Mr. Henry Vedrines who occupy official positions in the French National Assembly in the name of the Communist Party. We accuse Mr. Andre Wurmser, Mr Claude Morgan, Mr. Jean Coin, the families Hilsum and Wogel, who have the monopoly of the press and publications of the French Communist Party and occasionally the trade with the U.S.S.R. and the People's Democracies. All the names cited here are responsible of "messianic deviation" who obey to the baton of the same orchestra conductor who conducts equally Mr. Jules Moch, Charlet Lussy, Solomon Crumbach and Co., and Tito clique now in London but more frequently in Washington.

We also accuse Edgar Lallemand, general secretary of the Communist Party of Belgium, and we are ready to accuse other "personalities" who are behind the scenes, like for instance Ziromsky, who had distinguished themselves by the practice of certain intolerance in making the U.S.S.R. and the Popular Democracies a buttress for their diabolical intrigues.

We do not accuse them for the pleasure of accusing in order to quench our thirst for a particular vengeance. We do it because it is our duty. We do it because it is for the interests of the French and Belgian working classes. We do it because the existence and independence of the communist parties is at stake. We recall, however, that a certain gentleman by the name of Fernand Demany, the day after our informative intervention on the royal question of Belgium, has been worked himself up to indignation and insulted us grossly To day, this gentlemen Demany is unmasked. He is among the enemies of the U.S.S.R. and the Communist Party of Belgium, and it is we who were right.

We do not want that the crypto-trotskyist of the French Communist Party, under the pretext of fighting the de gaullist danger, should prepare the way to the dictatorship of that sinister individual, Jules Moch. We do not want that France, composed of solid ethnic elements, should be delivered hands and feet bound to the american cosmopolitan agents. We do not want that one of the most odious imposture of our times be continued, and we shall hesitate to strike, as high as the situation may demand, if our warnings went unheeded.

We do not want that France should become a new martyred Greece, and we will not forget that even Mr. Jaques Duclos was involved in the Athens scandals by "recommending Mr. Bloch" who had dealings with the american agents. And we shall never forget that "Humanite" has kept silence on the diversion of 80% of the american aid to monarcho-fascist Greece to the State of Israel.

The hour of Justice is getting nearer. It is solemn and let the enemies of Communism and the U.S.S.R. not rejoice because it is their own secret agents who are being unmasked by the "NEW DIPLOMAT".

●

We have received from our readers a big mail congratulating us for our strong and bold position and recalling us that no paper in France or here would dare to publish what we have so courageously done. France is in chains, write other correspondents, and we see a light of hope thanks to the "NEW DIPLOMAT". "France needs, for her real liberation, the help of Russian and British democrats," point out men who seems to occupy high positions by adding that "between the lines of your article have seen the real face of the U.S.S.R."

We regret we are not able to answer individually to each one of our many correspondents, because the "NEW DIPLOMAT" has adopted, since its foundation, the principle of not undertaking to enter into private correspondence.

Yes! The Economic relations between East & West are crippled by the Messianic oligarchies and their Crypto-trotskyist lackeys...

Stern warning Mr. Truman, Mr. Attlee and Co., addressed by the National groups of Exporters and Importers who want to renew the Economic Relation between EAST and WEST.

The "NEW DIPLOMAT" is able to assert that, by its recent disclosures on the crypto-trotskyists's intrigues who sabotaged the trades relations of Poland and other popular democracies with other countries, its campaign has victoriously triumphed and seriously shaken the opinion of the circles concerned.

Yes! The economic relations between East and West are crippled by the messianic oligarchies and their crypto-trotskyist lackeys!

A stern warning to Mr. Truman, Mr. Attlee and Co., has been addressed by the national groups of exporters and importers who want to renew the economic relations between East and West. The document they have drawn up and addressed to the commercial missions of the U.S,S.R. and these of the Popular Democracies condemned vigorously the "Marshall Plan" which strangles the national effort of the vassal countries and threats peace by creating misery. It is a strong condemnation which the press of the imperialists aided by their accomplices, the crypto-trotskyist, would like to stifle, Mr. Churchill's speech is no more or less than a

STATE FARMS' ROLE IN HUNGARIAN AGRICULTURE

State farms, along with tractor stations and co-operative farms, form the foundation upon which socialist agriculture in Hungary is built.

The State farms are large organisations equipped with modern machinery, and characterised by high productivity due to mechanisation and to ration all organisation of labour. They aim to supply co-operative farms with improved seed and breeding-stock to enable them to achieve State farm standards of production which, compared to the average for the country, are very high.

They also advance the modernisation of Hungarian agriculture. They encourage the small farmers to form co-operative farms. By making superior technical knowledge available to small producers, they awaken the peasants' interest in the possibilities of large-scale production. The high yields of State farms, the reduction of hard work by mechanisation, the splendid animal stock and the cultural and vocational opportunities of State farm workers demonstrate to the peasants the superiority large-scale farming.

How the State Farms Developed

Before the Liberation there were a few State Farms in Hungary, mainly engaged in breeding race horses and military horses.
At the time of the Land Reform in 1945, large estates owned by seed-growing firms and privately-owned model farms, were taken over by the State and made into State farms. In 1949, the number of State farms was 320, covering an area of 739.000 acres.

In the old days the State farms benefited the big estate owners, and paid little attention to raising the standards of Hungarian agriculture. They also functioned at a large deficit.

State Farms To-day

To-day the aim of the State farms is to raise the level of Hungarian agriculture as a whole. One of their principal tasks is to encourage the use of improved seed by co-operative and small farmers. As a consequence, all co-operative farms to-day use improved seed.

Another of their tasks is to acclimatise new plants and to teach small farmers how to grow them. Thanks to this, cotton kok-sagiz (rubber plant) and kenaf (jute substitute) are being grown for the use of Hungarian industry.

Animal breeding is carried on with the aim of producing animals suitable to the various parts of the country. State farms make high-quality breeding animals available for the working peasants, and thus raise the general quality of livestock.

Co-operative farmers regularly visit State farms and study their methods of operation in order to apply them to their own work. The success of these methods in the co-operative farms has lead many small peasants to turn to the co-operatives for advice, and to follow their example.

The State farms carry on their work in a planned manner. They made detailed production and financial plans which give a precise estimate of the work, tools and materials needed for the respective tasks. The plans of the State farms form an integral part of the agricultural plan for the whole of the country.

Better Conditions for the Workers

In former times wages of agricultural workers were based on a "free agreement" between estate owners and the workers. More than half the agricultural workers on large estates were under yearly contract. Payment was mainly in kind, with a small sum of money. Workers were usually allowed a small area of land, on which they could keep a cow or a pig, and grow their own vegetables. They worked long hours; sometimes from three or four in the morning to eight or ten at night.

There was no difference in the conditions of workers on big estates and State farms, except, perhaps, that they were slightly worse. They were forbidden to join trade unions or engage in political activities and, while they were liable to arrest if they left their job, they were also liable to be dismissed without notice.

To-day agricultural workers benefit from a collective contract which regulates hours, wages and conditions. Every farm has its own union branch. In the summer time they work ten hours a day, in the winter eight. They have a minimum of two weeks paid holiday, and all the other rights of industrial workers.

Wages are based on a piece-rate system, wherever possible. A norm is set up, and earnings are determined by whether the norm is fulfilled or overfufilled, with the result that those who regularly overfulfil their norms can and do earn wages well above the average.

State farms are directed by agricultural experts. Their work is not restricted to managing the farm but also consists of maintaining close relationship with nearby co-operative farms, tractor stations, and small farmers, and leading classes on technical subjects for the farm workers.

The old isolated life of the country worker has disappeared. State farms have also workers' clubs and many social activities, including choirs, dances, theatricals, and film shows, and adult education.

SOVIET GOVERNMENT'S PROTEST NOTE TO U.S. GOVERNMENT

SOVIET PLANE SHOT DOWN BY U.S. FIGHTERS

On September 6, Mr. A.Y. Vyshinsky, Minister of the Foreign Affairs of the USSR, received Admiral Alan G. Kirk, United States Ambassador, and handed him the following Note, after reading out the text:

"The Government of the Union of Soviet Socialist Republics, in the basis of verifed data, considers it necessary to declare to the Government of the United States the following:

"On September 4 at 12 hrs. 44 mins. local time, a twin-engined aeroplane of the Air Force of the USSR, without bombing or torpedoing armament on board carrying out a training flight from Port Arthur towards the area of Haiyuntao Island, which lies within the frontiers of Port Arthur naval base, and located 140 kilometres off the Korean coast, without any ground or reason whatever was attacked and fired on by 11 fighters of the United States Air Force, As a result of the attack the Soviet aeroplane was brought down and fell in flames into the sea, eight kils. south of Haiyuntao Island

"This attack by American fighters on an aeroplane of the Soviet Air Force was witnessed by two other Soviet aeroplanes carrying out a training flight together with the destroyed aeroplane, and also by a Soviet observation and communication services post on Haiyuntao Island.

"To cover up this attack on the Soviet aeroplane, for which no excuse can be found, the United States representative in the United Nations organisation put out the false version that the Soviet aeroplane had allegedly passed over a ship on escort duty and had taken a course with clearly hostile aims towards the centre of a United Nations formation and had allegedly opened fire on American fighters:

"In fact, the Soviet aeroplane, far from passing over the American ship, did not even approach it, flying at a distance of over 10 kilometres from it: carrying out. as already indicated above, a

WHO ARE SABOTAGING POLAND'S COMMERCIAL RELATIONS?

We have previously published very interesting reports concerning crypto-trotskyist groups having contituted the monopolies, and pointed out that those monopolies cripple unilaterally Poland's commercial relations with the Western countries.

We have denounced the "Vitram and Soframi" groups, the managers of which are the Landy Brothers. One of Jean Landy, was recently in Warsaw at the same time as the official French delegation, while the other, Charles Landy proposes also to visit Poland with a view, no doubt, of seeing Dzerkowski and Szukowski of "Motozbyt".

We have talked about the DIRPA groups (another obscure society) without indicating their strange relations with other Firms, like the Establishments Delombre of Paris, known during the war by their collaboration with the Nazi invaders. We have not indicated the strange Society S.F.M.P.D. which had to themselves with Vitrame and Sonframi the polish markets.

To-day we publish a long list of Polish and French organisms which are exploiting unfairly the external commerce of democratic Poland against the interests of the Polish and French peoples.

The Societe Varimex under the direction of Mr. Stanislaw Sokolowski and Mr. Zdzislaw Kaminski in Warsaw, who carelessly entrust their national interests to crypto-trotskyists of a society known as O.F.I.C.E., whose head offices are in Paris, 43, Rue de Courcelles and whose directors are Mr. Sevrin and Mr. Labordette (pseudonyms), two polish emigrants. We have equally to mention the polish organism "Dalspo" with Czeslaw Mikolajunas and Waclaw Kelle who are completely lacking of vigilance and naively support O.F.I.C.E. with their colleagues Cezary Sperling and Woynillowicz Anna.

The Centrale Rybna of Warsaw commits the same mistake, and how strange are the relations of its director Mr. Mirski with O.F.I.C.E., while the Centrale Cebiloz surrenders itself up body and soul to the Vitrame.

The Centrale "Paged," the "Transactor," the "Motozbyt" all these organisms hide in their bosom agents of the american imperialism, and strive to sabotage the establishment of normal relations between Poland and other essentially commercial firms.

What Mr. Aranovich is doing in Warsaw and what are his private interests in the "Vitrame, S.O.F.R.A.M.I", and "Probur?"

What is Mr. Gilbert Hamburger of "Probur" doing in Warsaw? This man is the right hand man of Mr. Jean Landy of the "Vitrame", and was sent urgently to Poland to attempt apparently at corrupting the officials of the People's Democracy.

Who is the mysterious Mr. Boris of a certain Comptoir Forestier, who directs the "Vitrami", "Sofrani" "Ofice" and "Probur" by occult means with the support of certain Banks?

What are the actual activities of Mr. Kronsky, deputy to the commercial Councillor of Poland in France, because by his role he dees not cease favouring the obscure role of crypto-trotskyistgroups against the interests of democratic Poland? Who is maintaining him in Paris, and who has appointed him?

How the Centrales "CHPD" of Warsaw as well as the Polskie Zaklady Zbozowe are linked together with O.F.I.C.E. Omnimium?

Whom do they think deceive with impunity in the series of sabotage they are carrying out in order to hinder the economic relations of the Western countries with the Popular Democracies?

WHO ARE SABOTAGING THE COMMERCIAL RELATIONS OF HUNGARY AND CZECHOSLOVAKIA

What are the strange activities of the crypto-trotskyist groups in the "Prometal" and "Cominag" which hide in their bosom Hungarian and Czechs immigrants, who are enemies of their respective countries?

Why the hungarian directors of "Mogurt" of Budapest do favour "Prometal" and "Cominag" for their mysterious activities under cover of commerce?

About names we know a lot now. The vigilance of Populer Democracies must be increased in this domain. The trade with the enemies of progressive regimes must cease altogether. For there is a lot of honest industrialists and merchants who are vigorously complaining and form an erroneous judgment on the situation of the countries of the East and on the so-called "iron curtain". It is with them one has to work.

Mr. Churchill's "iron curtain" is the creation of the crypto-trotskyist groups. There is an iron curtain of their hidious combinations and their dishonest speculations which are the proper characteristics of the decadent capitalist regimes.

For the genuine progressives and friends of the U.S.S.R. and the Popular Democracies who know and understand our reports, the slogan must be: UNMASK EVERYWHERE THE CRYPTO-TROTSKYISTS!

The "NEW DIPLOMAT" shall never stop its campaign, whatever resentment may feel those who are abusing the generous confidence of Popular Democracies.

YES! The Economic Relations between East and West are crippled by the Messianic oligarchies and their Crypto-trotskyist lakeys...

From Page one

manoeuvre of intimidation inspired by the messianic oligarchies which would like to monopolise for ever the commercial exchanges between East and West. But the truth, when it is based on the realities of our daily life, has no frontiers and the "NEW DIPLOMAT" raises a cry of alarm for the fate of millions of workers under the menace of unemployment who are an easy prey for the war and whom the "NEW DIPLOMAT" want to protect. This appeal is addressed to the U.S.S.R. and the Popular Democracies, buttresses of the working classes.

The economic relation between East and West are the strongest ties that ensure peace among the peoples. All those who sought to break those ties are but provocateurs and criminals and must be immediately unmasked.

The officials as well as the diplomats of both Popular Democracies and the U.S.S.R. failed to take stock of our ultimate warnings would become the accomplices of the enemies of peace, that is the enemies of the U.S.S.R. and the Popular Democracies.

Yet we are quite certain that all "KRANCHENCOS" will be unmasked and severely punished. N.D.

60.000 PEACE signatures in Iran

According to a report of the newspaper "Mac Ahat" the Iranian Peace Society has collected 60.000 signatures to the Stockholm Appeal. The collection of signatures continues successfully.

"Mac Ahat" publishes the names of a number of prominent professors of Teheran University and the names of 84 judges who have signed the Appeal. The Appeal has also been signed by another 36 editors and publishers of Teheran newspapers. The publishers of 20 newspapers have become members of the Iranian Peace Society.

Soviet Government's Protest Note to the U.S. Government

From Page two

training flight, and did not open fire on American fighters but was brought down as a result of an unprovoked attack by 11 American fighters.

"The Soviet Government categorically rejects the American version and lodges a resolute protest with United States Government against the crime committed by the American Air Force.

"The Soviet Government places on the United States Government the entire responsibility for the criminal action of the American military authorities, who have besmirched themselves by this flagrant violation of generally accepted standard of international law, and insists on the strict investigation and punishment of those responsible for this attack, and also on compensation for the loss of the crew, consisting of three pilots, and for the destruction of the Soviet aeroplane.

"The Soviet Government deem it also necessary to call the attention of the United States Government to the serious consequences such actions by the American military authorities may entail,"

The United States Ambassador, Admiral Kirk, declared that the American armed forces in the Pacific are subordinated to the United Nations, that the question must allegedly be considered is the United Nations organisation and not by the United States Government, and on this pretext refused to accept the Note.

Mr. Vyshinsky pointed out to Admiral Kirk that such motivation was fully unfounded, since the incident of September 4 bore no relation whatever to the military operations in Korea. As the Soviet aeroplane was brought down by American fighters, responsibility for their action rested exclusively with the American military authorities, acting under control of the United States Government.

On the same day the above Note was sent by the Ministry of Foreign Affairs of the USSR to theAmerican Embassy in Moscow.

Long live the friendship and co-operation of the peoples fighting for lasting peace!

ПРОТЕСТ СОВЕТСКОГО ПРАВИТЕЛЬСТВА ПРАВИТЕЛЬСТВУ США

6 сентября министр иностранных дел СССР Вышинский принял посла США г-на Кэрка и передал ему следующую ноту, предварительно огласив текст ноты:

"Правительство Союза Советских Социалистических Республик считает необходимым на основании проверенных данных заявить правительству США следующее:

4 сентября в 12 часов 44 минуты по местному времени двухмоторный самолет Военно-Воздушных Сил СССР, не имевший ни бомбардировачного, ни торбедного вооружения совершавший тренировочный полет из Порт-Артура в район острова Хайян-Дао, входящего в границы Порт Артурской военно-морской базы и находящегося в 140 километрах от берегов Кореи, без всякого основания и повода был атакован и обстрелян 11-ю истребителями военно-воздушных сил США.

В результате атаки советский самолет был сбит и упал горящим в море, в 8 колометрах южнее острова Хойян-Дао.

Свидетелями этого нападения американских истребителей на самолет Советских Военно-Воздушных Сил были два других советских самолета, совершавших тренировочный полет совместно с погибшим самолетом, а также Советский пост службы наблюдения и связи на острове Хайян-Дао.

Чтобы прикрыть это ничем не оправдываемое нападение на советский самолет. правительство США в ООН пустил в ход лживую версию о том, что советский самолет, якобы, прошел над судном, осуществляющим прикрытие, и направился с явно враждебными целями к центру соединения Об'единенных Наций и, якобы, открыл огонь по американским истребителям.

В действительности же советский самолет не только не проходил над американским судном, но и не приближался к нему, находясь от него на расстоянии более 10 километров и совершал, как уже было сказано выше, тренировочный полет, никакого огня по американским истребителям не открывал, а был сбит в результате беспричинного нападения на него одинадцати американских истребителей.

Советское правительство категорически отвергает американскую версию и заявляет решительный протест правительству США против преступления, совершенного американской военной авиацией.

Советское правительство возлагает на правительство США всю ответственность за преступные действия американских военных властей, запятнавших себя этим вопиющим нарушением общепризнанных норм международного права, и настаивает на строгом расследовании и наказании лиц, ответственных за указанное нападение, а также на возмещение ущерба, причиненного гибелью экипажа в составе трех летчиков и уничтожением советского самолета.

Советское правительство считает также необходимым обратить внимание правительства США на серьезные последствия, которые могут иметь подобные действия со стороны американских военных властей".

Посол США г-н Клэрк заявил, что вооруженные силы в районе Тихого океана находятся в подчинении ООН, что данный вопрос, якобы, должен рассматриваться в ООН, а не правительством США, и под этим предлогом отказался принять ноту.

Вышинский указал г-ну Клэрку на полную несостоятельность подобного мотива, так как инцидент 4 сентября не имеет никакого отношения к военным действиям в Корее. Поскольку советский самолет был сбит американскими истребителями, ответственность за их действия лежит искючительно на американских военных властях, действующих под контролем правительства США

В тот же день изложенная выше нота министерством иностранных дел СССР была направлена американскому посольству в Москве.

НЕДОВОЛЬСТВО АМЕРИКИ ВОЕННЫМИ ПРИГОТОВЛЕНИЯМИ СТРАН ЗАПАДНОЙ ЕВРОПЫ

Голландские газеты уделяют большое внимание военным приготовлениям стран агрессивного Атлантического пакта в связи с закончившимся здесь заседании Комитета Заместителей Министров иностранных дел этих стран. Газеты сообщают, что американцы "крайне недовольны" военными приготовлениями правительств строн зопадной Европы и требуют увеличения численности западно-европейских армий. В самые быстрые сроки, в западной Европе должно быть сформировано 32 дивизии и значительно расширен выпуск военной продукции. Англия обязана немедленно сформировать 10 дивизий, Франция—20 дивизий, Бельгия—4 и Голландия—3. США пошлют в Европу 4 дивизии. Американцы заявляют, что, если западная Европа не покажет "настоящего тесного сотрудничества", то США вообще прекратят военную помощь и пересмотрят план Маршалла.

ПРОТЕСТ ШАХТЕРОВ

По сообщениям печати, 1.200 горняков шахты Саттен Мейнор в Сент-Хеленсе 5 сентября прекратили работу в знак протеста против заключения в тюрьму шахтера Джона Хорекса. Джон Хорекс отказался уплатить полицейскому суду штраф, наложенный на него и еще на 24 гордяков за то, что они, якобы, нарушили контракты и 4 сентября Хорребс был заключен в тюрьму. Выданы ордена на арест еще 21 человека. 5 сентября на массовом митинге горняки единодушно решили не возвращаться на работу, пока Хорркс не будет освобожден, а власти не откажутся от санкций против остальных горняков. Сообщается, что 5 сентября 1.000 горняков шахты Боуле в Рент-Хелонсе присоединились к забастовке Саттен Мейнер.

Вечером 6 сентября участвующие в забастовке добились полной победы—Хорркс был освобожден.

ПРОИЗВОЛ АМЕРИКАНСКИХ ВОЕННОСЛУЖАЩИХ В ТУРЦИИ

Газета "Кудрет" на первой странице под крупным заголовком описывает случай, характеризующий произвол американских военнослужащих в Турции Газета указывает, что 12-летний мальчик, подойдя к стоящему у дома мотоциклу со свойственным детям любопытством начал его осматривать и нечаянно нажал на кнопку сигнала. Проживавший в этом доме владелец мотоцикла, сотрудник американской военной миссии в Турции в чине майора, услыхав сигнал мотоцикла, распахнул окно и произвел в ребенка два выстрела, а затем, как ни в чем не бывало, захлопнул окно и занялся своими делами. Ребенок был ранен в ногу. Когда приехавшая полиция обратилась к майору за раз'яснениями, то последний в ответ показал им дипломатический паспорт и заявил, что он никуда не поедет и никому не будет давать никаких об'яснений.

ПОЛИТИКА США В ИРАНЕ

Член верховного суда США Уильям Дуглас, совершает "альпинистские экскурсии" по районам Ирана, населенным многочисленными племенами курдов, луров и бахтияров. Тегеранская печать указывает что Дуглас направлен под видом "альпиниста" в районы крупнейших иранских племен для того, чтобы "вступить в контакт" с ними. О цели этого контакта догадаться не трудно. В то время, когда Дуглас среди иранских племен занят осуществлением своих планов, поступают сообщения о том, что в Иран прибудет специальный помощник президента США Гарриман. Мы неоднократно указывали,—пишет ирнская газета,—на военно-поджигательские и антинациональные заговоры, организуемые агентами американской политики среди иранских племен. Проводящие агрессивную политику в Иране, США с каждым днем все больше вмешивается во внутренние дела страны. Американцы не преследуют в Иране иных целей, кроме разжигания вражды к Советскому Союзу и превращения Ирана в военную базу и полного захвата иранского рынка.
